Kage Pro

Neoclassical Display Serif Fonts Family

Designer	Wayan Bill Natih
Publisher	Balibilly Design
Version	2.0
Styles	22 styles (11 upright & 11 oblique)
File Formats	otf, ttf, woff, woff2
Released in	2022

Manufacturer	Balibilly Design
Copyright	Copyright© 2022 by Balibilly Design All rights reserved.
Trademark	Kage Pro is a trademark of Balibilly Design
Features	all family-style consist of one variable font with 2 axes. The total number of glyphs is 1,665 in each style. Comes with tons of swirly ligatures and stylistic alternates in Advance OpenType features, including: Case-sensitive forms, small caps, standard and discretionary ligatures, stylistic alternates, ordinals, fractions, numerator, denominator, superscript, subscript, circled number, slashed zero, old-style figure, tabular and lining figure. Support multi language including Western European, Central European, Southeastern European, South American, Oceanian, Vietnamese.

Greetings!

We are introducing an advanced version of the Kage font released and received great exposure from users and worldwide font enthusiasts. The massive development puts forward experimentation on the alternate letters. We redesign each shape to make it more functional and comfortable when text size escalation occurs. In addition to rejuvenating the letterform, we also apply an oblique style to provide diverse style choices.

The Inspiration

The radical exploration world of fashion inspires us. It leads our minds to the Neo-classical type style created during the age of enlightenment in the 18th century. It has a reasonably extreme contrast from the previous serif style, making the impression that it is emitted more expensive and classy.

Organically, this Neo-Classical typeface is closely related to the fashion world, especially in Europe, and even spread across the globe. Fashion and this typeface reflect each other. After, we boldly observed Japanese fashion designer Rei Kawakubo. Famous for radical & deconstructive fashion, which makes the world of fashion more flexible and dynamic.

The Design

As well as the typeface that we made, we started it with a cultural foundation of the Didone typeface. We tried to deconstruct the appearance. The decoration that better reflected the dynamic of fashion implemented in the fashionable alternate and calligraphical stylistic set ended with ball terminals. The versatile impression created is like taking off a scarf on the model's hair during a fashion show. The deconstructive image is combined with a legibility structure like the appearance of the Neo-Classical style.

Kage Pro is designed to visualize a costly and exclusive image of a thing, product, world clothing brand, famous fashion magazine, etc. The modern transitions of each letterform are softer, so when repositioning and escalating the size of this font, it will remain beautiful without injuring other elements. So, Kage Pro is a bold choice on headlines and more prominent media with a portion of 50% even more.

The Features

Kage Pro has 11 upright and 11 oblique styles from thin to black; all family-style consist of one variable font with 2 axes. The total number of glyphs is 1,665 in each style. She comes with tons of swirly ligatures and stylistic alternates in Advance OpenType features, including Case-sensitive forms, small caps, standard and discretionary ligatures, stylistic alternates, ordinals, fractions, numerator, denominator, superscript, subscript, circled number, slashed zero, old-style figure, tabular and lining figure. Support multi-language including Western European, Central European, Southeastern European, South American, Oceanian, Vietnamese.

Quick wafting zephyrs vex bold Jim. Now is the time for all quick brown dogs to jump over the lazy lynx. About sixty codfish eggs will make a quarter pound of very fizzy jelly. West quickly gave Bert handsome prizes for six juicy plums. Brawny gods just flocked up to quiz and vex him.
